GENERAL SOCIAL & CLOSING REMARKS

Location: Conference Room A & B

E V E N T I N F O R M A T I O N

G R A D U A T E P A N E L

Panellists from a range of psychology fields (e.g., experimental, clinical, educational, and counselling psychology) as well as one of our psychology instructors to speak of their journey, provide knowledge, tips, and expertise in the field they are in to help students in academic goals. This panel ends with a 30 minute Q&A.

A C A D E M I C B O O T H S

Representatives from KPU such as the psychology research labs will be accessible for you to interact with during lunch. These booths will offer opportunities for you to improve your academic skill sets and/or career objectives.

N E T W O R K I N G 1 0 1

Networking 101 is a short and simple crash course for students to learn how to network with professionals. You will be prepped for networking, learning the dos and don'ts when networking with professionals. Once you have been warmed up for networking, we will launch the Career Roundtable session.

C A R E E R R O U N D T A B L E S

Students have the opportunity to sign-up in advance for their preferred table host and network with 4 professionals (lasting 15 mins per table). Students will practise their networking skills and get information on their desired career paths!

Students and will move on to the next numbered table every 15 minutes (4 tables). The tables are set up so that every participant will speak to a cross section of experts ranging from Psychology Practitioners to Hiring & Career Professionals.

G E N E R A L S O C I A L

To wrap up the conference, we will end with a general social, where students have the chance to continue networking with their chosen professionals or with ones they did not have the chance to during Career Roundtable session.

R A F F L E D R A W S

Two raffle prizes will be drawn during the conference. The prize of this draw is a \$25 giftcard to the KPU bookstore. Be sure to stay for the draw and don't lose your raffle ticket!

LUNCH MENU

SANDWICHES

Roasted Vegetables Sensation	Roasted red onion, roasted red/green pepper, roasted mushrooms, spinach fresh melted mozzarella, lettuce and a pesto aioli
Roast Beef	Roast beef with caramelized onion, mozza cheese, sliced tomato, lettuce, horseradish aioli
Grilled Honey Ham	Honey ham, tomato, lettuce, spicy banana peppers, leaf lettuce w/ Italian dressing
Cranberry & Rosemary Chicken Salad	Grilled chicken breast, roasted red & green pepper, mozzarella cheese, spinach, pesto mayonnaise.

WRAPS

Pesto Roasted Vegetable	Roasted vegetables, pesto mayonnaise, shredded lettuce, feta cheese, rice
Morocco Chicken Wrap	In-house roasted morocco chicken, hummus, diced tomato, crisp romaine lettuce, onion chutney, fresh mint
Hot & Crunchy Chicken	Crispy chicken tenders, sweet chili sauce, lettuce and tomatoes

SALADS

Strawberry Spinach Salad	Spinach, strawberries, red onion, sunflower seeds, feta cheese (on side)
Greek Salad	Cucumbers, bell peppers, grape tomato, black olives, red onion, feta cheese (on side)

REFRESHMENTS & SNACKS

Coffee & Tea
Soft Drinks
Coke
Sprite
Ginger Ale
Iced Tea

Fresh Fruit Tarts
Baked Homestyle Cookies
Chocolate Chip
White Chocolate Macadamia Nut
Double Chocolate w/ White Chocolate Chips
Oatmeal Raisin

PLEASE INFORM US OF ANY ALLERGIES

PSYCHOLOGY & COUNSELLING DEGREE

Bachelor of Arts

The Bachelor of Arts Major in Psychology is a traditional degree focusing on core areas in psychology including biopsychology, cognitive psychology, developmental psychology, social/personality psychology, and clinical/abnormal psychology.

As KPU's flagship Psychology degree program, the BA is a flexible degree that allows students to explore many different content areas of psychology as well as other areas within the social sciences and humanities. Because of the flexibility of the program, BA students have the opportunity to consult with advisors, faculty and peers to determine their own degree specialization. The emphasis is on transferable skills, including critical thinking, writing, group work, and oral presentations.

The value of a BA in Psychology has been documented many times and BA Psychology graduates can be found working in a variety of roles such as: group home coordinator, behaviour analyst, residential and youth counselor, and mental health worker to list but a few examples. Many employers are interested in the critical thinking and research skills that psychology majors bring and, as a result, psychology graduates are marketable well beyond the boundaries of psychology. For example, our BA psychology graduates have also been successful in finding employment as loans officers, probation officers, office managers, and customer relations representatives.

Bachelor of Applied Arts

The Bachelor of Applied Arts degree program is geared towards helping students gain the skills and experience necessary to be job-skills ready. The BAA also emphasizes research skills, and gives students a bit of the grad school experience and skills, without going to graduate school. The program is more rigorous and challenging than the more flexible Bachelor of Arts, but includes courses hand-picked by faculty and employers to target hard and soft job skills. The BAA is ideally suited for students interested in workplace expertise, tests and measurements, and UX design.

Students also participate in a workplace practicum coordinated by KPU and co-supervised by faculty and employers in relevant fields of employment. This practicum placement will assist students in gaining workplace experience and in meeting potential future employers.

The BAA in Psychology was developed in consultation with employers throughout the Lower Mainland of British Columbia. These employers indicated that graduates of the BAA (Psychology) program are qualified for positions such as program evaluators, research analysts, project consultants, user experience designers, human resources advisors, and health planning consultants. Past graduates have found employment in such areas as health research, human resources, market research, psychological testing and crisis services, product usability research, autism intervention, education, and corrections.

PSYCHOLOGY & COUNSELLING DEGREE CONT.

Bachelor of Science

The Bachelor of Science in Applied Psychology is ideal for students interested in pursuing a health sciences career. This is also the Psychology degree program most suited for students who have an interest in neuroscience, particularly at the graduate level. The BSc is the most interdisciplinary of our psychology degrees, exposing students to biology, chemistry, math, and physics in addition to a broad array of psychology courses. This degree is also very “hands-on” with students being exposed to lab and research experiences as well as developing technical writing skills and workplace expertise.

The degree was developed in close connection with employers in the field and community partners, and has an applied focus that prepares students for employment upon graduation, for research-focused graduate studies, or for entry into professional programs of study. Many courses within this program have a lab component. The program takes a systems/ecological approach, recognizing the interrelationships between humans and their environments.

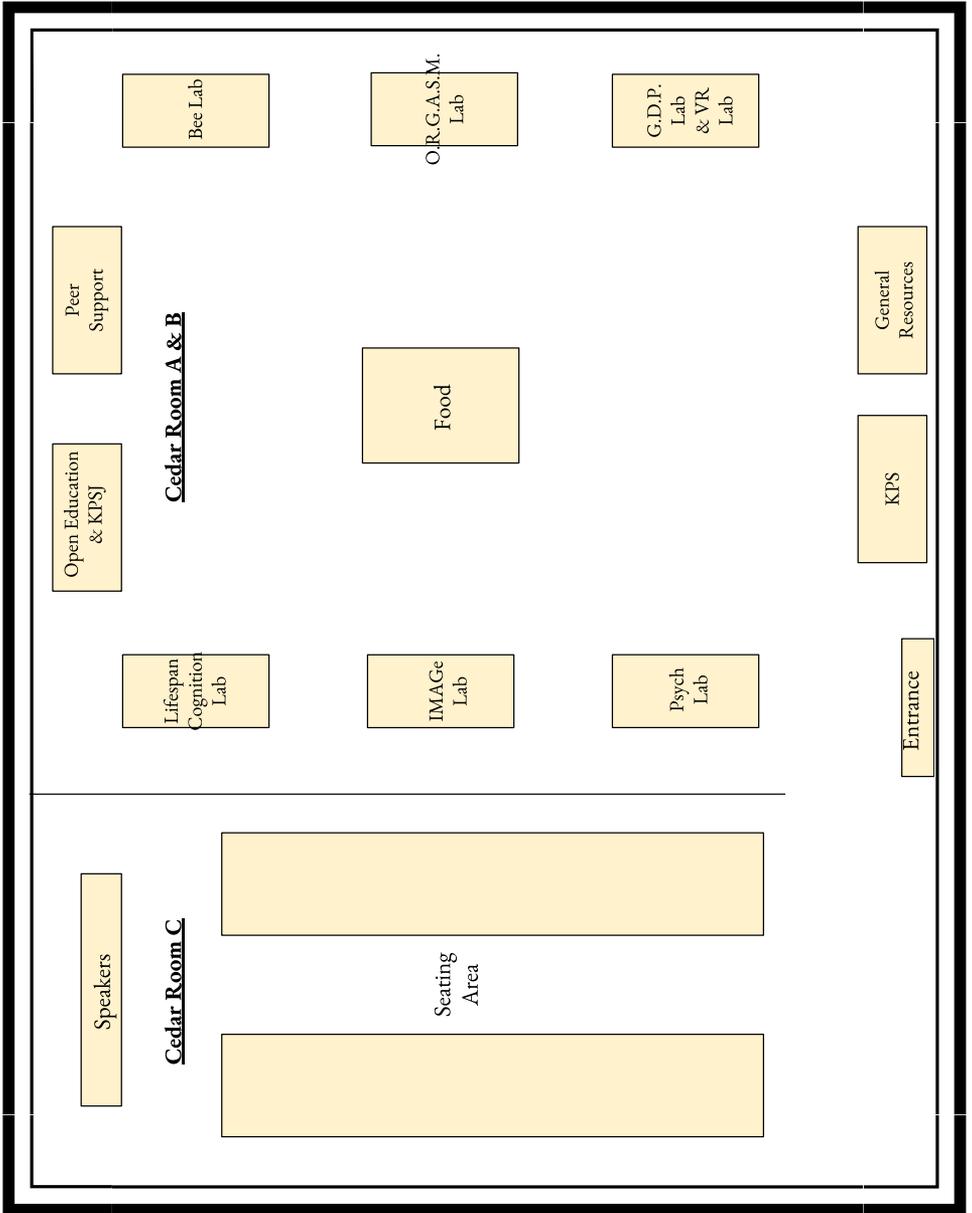

Graduates of this degree could therefore find employment in areas such as health sciences, vocational rehabilitation mental health services, disability services, software usability research, program evaluation, research and design, and pharmaceuticals, among other opportunities.

Counselling Minor

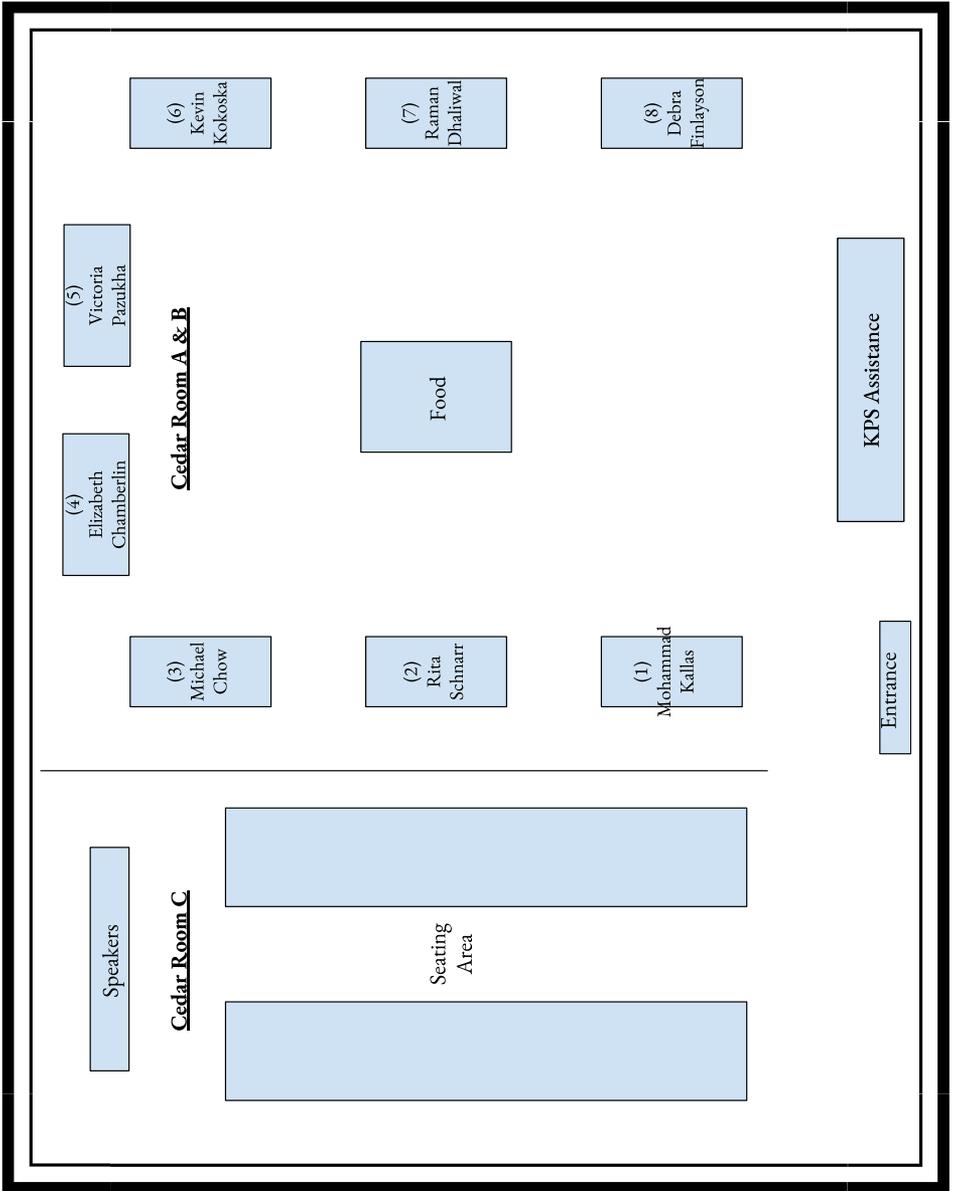

The Minor in Counselling was designed to provide students with a strong theoretical and practical understanding of the interdisciplinary field of counselling. Students in the program will develop a sound knowledge of theories in counselling, develop basic counselling skills (e.g., active listening, assessment, case conceptualization, goal-setting, counselling interventions) through engagement in practical and experiential learning opportunities, and learn about and reflect deeply on issues related to work in the helping professions (e.g., self-care, power dynamics, cultural considerations, professional ethics, boundaries of competence).

Counselling courses were created to give students a broad introduction to the counselling field and associated professions. Emphasis is given to both theory and practice. The content of these courses is relevant to any student who wants to work in a field where interpersonal skills, abilities, and insights would be an asset (e.g., social work, policing, education, business). Many of the courses are mandatory prerequisites for students who want to pursue graduate work in counselling psychology.

ACADEMIC SESSION MAP

CAREER SESSION MAP

GRADUATE PANNELLISTS

MADELINE SAWATZKY

Counselling Psychology

Madeline Sawatzky is just finishing up her first year in the Master's of Education in Counselling Psychology program at UBC.

She has a special interest in children with social, emotional, and behavioural challenges (i.e. kids with ADHD, ODD) and hopes to pursue a career that caters to this population of children.

KATHERYN MORRISON

Educational Psychology

Katheryn (Kate) Morrison is finishing up her Master's in the Human Development, Learning, and Culture department program at UBC. During her time at UBC, Kate won a SSHRC grant for her Master's thesis on teen dating violence and how teachers can become better support systems for students' that may be experiencing dating violence.

MEGAN GIROUX

Forensic Psychology

Megan Giroux is a Vanier scholar and a Ph.D. candidate in the Experimental Psychology and Law program at SFU. She earned her B.S. in Psychology and her B.A. in Dance from Ursinus College in Collegeville, Pennsylvania before earning her M.A. in Experimental Psychology and Law at SFU.

Her research interests include cognitive biases in legal decision-making, false confessions, and false beliefs and memories.

YUSRA SAID

Clinical Social Work

Yusra Said graduated from the Bachelor of Arts in Psychology with a Minor in Counselling from KPU in 2017. As a student at KPU, she worked and volunteered in several departments under the KSA, KPU, and with external non-profit organizations.

She was recently accepted to attend the University of Calgary for a Master of Social Work with a specialization in Clinical Social Work in May 2019. She is excited to start this new chapter of her life and pursue her dream of becoming a social worker to support individuals with mental health concerns.

SUSAN DAFLOS

Clinical Psychology

Susan Daflos received her Masters in Clinical Psychology from the University of Nevada, Reno, and has 11 years of experience as a clinical counsellor specializing in the treatment of anxiety disorders and self-harm. She has research experience in treatment dissemination and psychotherapy treatment trials, and is currently researching social cognition across the lifespan.

KRISTIE DUKEWICH

Psychology Instructor

Kristie Dukewich is a faculty member in Psychology and an educational consultant in the Teaching & Learning Commons. She studied psychology at the University of Alberta before completing her MSc in Experimental Psychology and PhD in Neuroscience at Dalhousie University.

Kristie also completed two post-doctoral fellowships, a research post-doc in Neurology at the Halifax Infirmary, and a teaching post-doc in Psychology at the University of British Columbia.

ACADEMIC EXHIBITORS

KWANTLEN PSYCHOLOGY SOCIETY

Founded in 2003, KPS has been hosting events and providing resources to student over the years. Many changes have happened over the past decade including website changes, logo updates, and executive members graduating and moving on to other areas of their lives and careers.

We strive to continue the mission set by KPS since the creation of the club. We continue to provide our services thanks to the support of students attending our events, past and current executives that organized numerous activities, and also faculty & alumni members in providing guidance throughout the years.

www.kps.rocks | KwantlenPsychologySociety@gmail.com

KWANTLEN PSYCHOLOGY LAB

The psychology lab in the Surrey and Richmond campuses are vibrant hubs for students. Their first introduction to the lab is through lab assignments. However, the labs also serve as a help center for students needing assistance with their other course tasks. Importantly, the atmosphere in the lab is welcoming and inviting to all. As such, students connect here with other students to learn and facilitate each other's school work.

www.kpu.ca/arts/psychology/psyc-lab | spsychlab@kpu.ca | rpsychlab@kpu.ca

OPEN EDUCATION

Open education is a philosophy about the way people should produce, share, and build on knowledge. Proponents of open education believe everyone in the world should have access to high-quality educational experiences and resources, and they work to eliminate barriers to this goal. At KPU, open education is supported through the creation, adaptation, and adoption of open textbooks and other open educational resources (OER) as part of our Zed Cred initiative, support for open pedagogy, and the use of open-source educational technology.

www.kpu.ca/open | open@kpu.ca

KWANTLEN PSYCHOLOGY STUDENT JOURNAL

KPSJ was founded in 2018 by KPU Instructor Dr. Arleigh Reichl with the support of student-members of the Kwantlen Psychology Society and other KPU faculty members. Dr. Reichl's vision for this journal is to give students the experience of being reviewers and editors in an academic journal, and to introduce students to the peer-review process through publishing their undergraduate work.

The scope of KPSJ publications are empirical research articles (such as course-based research projects or honour's projects) and analytical papers.

journals.kpu.ca/ojs/index.php/KPSJ | kpsj@kpu.ca

ACADEMIC EXHIBITORS CONT.

LIFESPAN COGNITION LAB

Our lab conducts research on developmental and cognitive psychology—how thinking changes and develops across the lifespan. Our most recent areas of research involve perspective taking and theory of mind, false memories, metacognition, and hindsight bias. We are also interested in a wide variety of areas within cognitive psychology including, but not limited to: belief and memory, mild head injury, and sleep and dreams.

www.lifespanspancognition.org/ | lifespanspancognition@kpu.ca

O.R.G.A.S.M LAB

The Observations and Research in Gender and Sexuality Matters (O.R.G.A.S.M) research lab in the department of Psychology at Kwantlen Polytechnic University is where we actively explore issues in human sexuality such as sexual orientation, commercial sex, and atypical sexuality in an effort to disseminate knowledge about these important topics in our society.

www.orgasmresearchlab.com/ | cory.pedersen@kpu.ca

BEE COGNITION LAB

In 2014, Dr. Levente Orbán established the Bee Cognition Lab. Conducting basic and applied studies in the area of cognition, ethology and behavioural informatics, the Bee Lab use bees and other small brains (e.g. birds, other insects, computers) to study the mechanisms of decision making and visual perception. We use a variety of techniques including closed-loop Virtual Reality system to track bee flight, a radial arm maze to record decision making, and a flight cage to track choice behaviour. Some of our current projects include how bees use the presence of other bees on flowers to make their very first choices, along with using a bee-VR system to fill the gaps in understanding about how bees use visual information to fly through cluttered environments.

www.llorban.net/ | llo@kpu.ca

GROUP DYNAMIC & PSYCHOMETRICS LAB

The Group Dynamics and Psychometrics Lab was established at KPU in early 2018 and is run by Dr. Shayna Rusticus. There are two main streams of research occurring in the lab. The group dynamics stream focuses on aspects of individuals working, studying or socializing in groups. Examples of projects in this stream have involved looking at methods of forming teams for group projects and exploring student and faculty perspectives of the learning environment. The second stream focuses on measurement issues. Psychometrics is a field of study that is concerned with the theory and technique of psychological measurement. Particular areas of interest in the lab in this stream are survey development and equivalence testing.

shayna.rusticus@kpu.ca

ACADEMIC EXHIBITORS CONT.

VIRTUAL REALITY LAB

Under the direction of Dr. Farhad Dastur, KPU's new Virtual Reality Lab is interested in students who want to do research in the exciting field of virtual and augmented reality. The VR Lab has access to cutting-edge equipment including the HTC Vive Pro, Oculus Rift, Oculus Go, Google Cardboard, and GoPro Fusion 360 video camera.

www.kpu.ca/arts/psychology/vr | farhad.dastur@kpu.ca

IMAGE LAB

The Issues in Media, Advertising and Gender (IMAGE) Lab is devoted to exploring the psychology of gender-related issues in mainstream media and advertising. Since 2007, Dr. Arleigh Reichl and the IMAGE Lab have conducted numerous empirical studies on various forms of prejudice in advertising and the effects of such on individuals' attitudes and behaviour. The lab has expanded its scope to include the effects of other cultural constructs in addition to magazine advertisements.

www.reichllab.com/ | manager@reichllab.com

PEER SUPPORT RESOURCE CENTER

The Peer Support Resource Centre (PSRC) is a unique and student-led initiative at KPU, connecting students with resources that will support their well-being and ideally, their overall experience at KPU. Whether that entails referring a student to a service such as advising, scheduling a peer chat between a student and one of our volunteers, or recommending a wellness workshop, our goal is to employ a personalized approach to supporting each student who comes our way.

We envision a KPU community where departments can collaborate to promote optimal student well-being and greater awareness of available resources. The PSRC strives to actualize this vision by creating a space for students to feel heard, informed, and empowered to navigate their academic journey at KPU. The PSRC aims to utilize several avenues to promote wellness on all of our campuses and ideally, contribute to student success.

www.kusa.ca/peersupport/ | peersupport@kusa.ca

GENERAL RESOURCES AT KWANTLEN

There are many resources on campus to help you succeed as a student. The Financial Aid services help students apply for awards, scholarships, bursaries, and student loans. Our Career Services host workshops such as resume editing and has an online hub called Career Connections to help students find jobs. Also, did you know we have an Alumni Association? This group aims to provide benefits to KPU alumni and also plan event for them too! Find out more about our on-campus resource at our general resource table!

See the Campus Contact page for list of contacts.

NETWORKING 101

Networking 101 with Debra Finlayson, CPHR, SHRM-CP

Debra has walked the halls of Kwantlen Polytechnic University many times, beginning with Kurt Penner's Employment and Educational Access class to acquiring her BBA, and HR Post Baccalaureate in 2008.

She has held several roles throughout her career, such as an HR, Marketing, Project and Relationship Manager and is a published academic author on 'Followership'. She will share with us some key networking tips for in-person events and how participants can get the most out of the 'Career Roundtables'.

EXPERT TABLE HOSTS

MICHAEL CHOW

Creating a Winning LinkedIn Profile

Instructor/Trainer/Instructional Designer on a mission to help learners succeed in their lifelong learning

Michael is a freelance graphic designer/instructor who specializes in print, web, and marketing. He started his corporate training and teaching in higher education institutions in 2006 and 2011 respectively.

A passion for graphic design and education, he is dedicated to lifelong learning and enjoys sharing his knowledge and experience with others. Some of his past and current instructional clients are BCIT, Langara College Continuing Studies, UBC Extended Learning and Vancouver Community College.

***Note: Bring in your laptop, tablet or mobile device with your LinkedIn profile already logged-in to receive a minute or two review if you want!**

Michael would be happy to answer any questions you have and, in particular, could provide advice on:

- *Show and create a unique LinkedIn URL*
- *Let recruiters know you're open to opportunities*
- *Adding relevant contact information for your profile*

ELIZABETH CHAMBERLIN

Gaining Employment with the Federal Government

Personnel Psychologist, Government of Canada

Dr. Chamberlin works as a personnel psychologist with the Government of Canada, helping managers find good fit candidates for positions they're staffing, and helping employees better understand their strengths and areas of development.

Elizabeth would be happy to answer any questions you might have and, in particular, could provide advice on:

- *Industrial-organizational psychology*
- *Practical tips on how to apply to federal government jobs.*

EXPERT TABLE HOSTS CONT.

MOHAMMAD KALLAS

Marketing Yourself Professionally

Senior Talent Acquisition Partner, CIBC Human Resources (MA, UBC, HR Post Bac., KPU, MBA Cand., SFU & Board Director, KPUAA)

Mohammed is an HR leader with a strong passion for working with people and over 10 years' experience in leadership, management, talent acquisition and development. He has a dynamic background in Psychology, Criminology, and Human Resource Management coupled with a self-driven and determined attitude to achieve results and make a strong impact.

He has particular strengths in problem solving and negotiation with an ability to quickly build rapport, coach, and inspire people through innovation and a commitment to excellence. Specialties: Retention Strategy Analysis, Talent Acquisition, Employee Relations, Training & Development, Problem Solving, Leadership & Team building, Strategic Planning, Consulting & Negotiation.

Mohammed would be happy to answer any questions you have and, in particular, could provide advice on:

- *What recruiter's look for in job candidates*
- *Self-promotion strategies*
- *Getting to the interview*

RITA SCHNARR

Exploring Registered Clinical Counselling and Workplace Mental Health

Registered Clinical Counsellor and Workplace Consultant with Dr. Joti Samra and Associates, (MA, Counselling Psychology, Yorkville U.; BA, Adult Ed.; Diploma, Professional Counselling; Diploma, General Business)

Rita has expertise in the following evidence-based modalities of treatment: Cognitive Behavioural Therapy (CBT); Dialectical Behaviour Therapy (DBT); Acceptance and Commitment Therapy (ACT); Interpersonal Therapy (IPT); Mindfulness-based Cognitive Therapy and Stress Reduction (MBCT/MBSR); and, Dr. John Gottman's approach to marital therapy. Using a holistic and biopsychosocial approach, Rita customizes treatment plans for individuals, couples, families and workplace employees and executives with a range of presenting issues including anxiety disorders, mood disorders, OCD, behavioural disorders, relationship difficulties, and life transition.

With over 25 years of professional experience in Human Resources, consulting and adult education, Rita has been instrumental in leading, developing, managing, and facilitating programs and people. She has held positions during her corporate career ranging from non-profit to Fortune 500 companies.

Rita would be happy to answer any questions you have and, in particular, could provide advice on:

- *The value of developing a specific area of expertise*
- *A day in the life of a Registered Clinical Counsellor*
- *Careers within workplace mental health*
- *Building a therapy practice*
- *Online Counselling master's programs: Pros and Cons*

EXPERT TABLE HOSTS CONT.

VICTORIA PAZUKHA

Managing Your Career with Purpose

Principal at Career Mobility Group (CPHR, CCDP, Masters in Neurophysiology, Odessa National 'I.I. Mecnikov' University; Certificate, Design Thinking, Harvard U.; Psychology Diploma, SFU; HR & Employment Law, BCIT)

Victoria is a talent and labour market development strategist, consultant and project manager. She specializes in designing and executing talent training, assessment, and performance solutions for multiple stakeholders across various sectors, including mining, construction, oil and gas, forestry, pulp and paper, shipbuilding, utilities, post-secondary, and non-profit.

In her consulting engagements, Victoria uses a blend of human resources, career management and design thinking approaches. She is passionate about developing and implementing talent practices that align employees' aspirations and organizational goals.

Victoria would be happy to answer any questions you have and, in particular, could provide advice on:

- *Using career mobility as your successful employment strategy*
- *Telling your career story to find work*
- *Understanding competence and skills transferability*
- *Exploring global career mobility and international experience*

KEVIN KOKOSKA

Marrying Your Passion and Your Career

Registered Clinical Counsellor; Instructor; Artist (BA, KPU; MEd, UBC)

Kevin is a psychotherapist, artist, and teacher. He offers clinical counselling and creative consulting services through his private practice (Kokoska Co.), writes/produces/performs solo shows about mental health (Furniture, The Mirror Test, Nobody's Boy), and teaches in the Family & Community Counselling program at Native Education College (NEC).

Kevin is interested in supporting KPU students in: pursuing graduate studies in counselling psychology, establishing professional authenticity, engaging with community, and developing a teaching practice.

Kevin would be happy to answer any questions you have and, in particular, could provide advice on:

- *How to maximize your chances of getting accepted into a counselling psychology program*
- *How to transition from graduate school to private practice*
- *Marrying your passion and your career and engaging with your community*

EXPERT TABLE HOSTS CONT.

RAMAN DHALIWAL

Finding a Job with a BA

Student Recruitment Coordinator for KPU (BA Honours, KPU)

Raman Dhaliwal graduated from KPU in 2017 with a Bachelor of Arts in Psychology with Honours and Minor in Counselling. As a student, she had volunteered with Peer Support and worked as a research assistant. She now works as a student recruitment coordinator at KPU's Future Students' Office.

Raman would be happy to answer any questions you have and, in particular, could provide advice on:

- *Balancing work, school and life as a student*
- *Taking a gap year before applying to graduate school*
- *Finding a job after graduating*
- *A day in the life of a student recruitment coordinator*

DEBRA FINLAYSON

Interviewing Like a Pro

HR/Learning Consultant, Speaker, Author and Instructor, SFU (BBA, KPU; Post Bac. HR (Honours), KPU; MA, Leadership & Change (Merit), Exeter U., UK)

Debra Finlayson, holding her Provincial Instructor's Diploma and Online Teaching Certificate, teaches Human Resources Management and Workplace Training and Development at Simon Fraser University. She also provides curriculum development and training for public and private organizations.

She has interviewed thousands of candidates in her role as a consultant and corporate recruiter for YVR, Duty Free, Gateway Casinos, and Simply Computing. For seven years, Debra oversaw the Fraser Valley and Greater Vancouver regions as the Member Relations Manager for HRMA (CPHR BC & Y), whereby she managed two advisory councils and many volunteers who executed hundreds of professional development and networking events serving 2,000 members.

Debra would be happy to answer any questions you have and, in particular, could provide advice on:

- *Getting known through volunteerism*
- *Knowing what to say and not to say in an interview*
- *Exploring the types of questions, you might be asked*
